To all business associates

Nuremberg, March 2019

Supplier declaration - shunts

Dear Sir or Madam,

of course we can confirm that all our shunts correspond to the RoHS- restriction 2011/65/EU.

After a thorough test of our shunts they do not fall under the following restrictions:

- RESTRICTION 2014/30/EU OF THE EUROPEAN PARLIAMENT AND COUNCIL
from February 26th 2014
- RESTRICTION 2011/65/EU OF THE EUROPEAN PARLIAMENT AND COUNCIL
from June 8th 2011

Our shunts are not electronic or electrical equipment, a finished appliance or a functional unit.

As a result of the listed reasons the application of a CE- marking and issue of an EG- declaration of conformity is not possible.

Materials, components and assemblies, which, according to the RoHS- restriction, aren't electronic or electrical devices on their own, but as soon as they have to be taken into account on a product, which, according to the RoHS- restriction is a electronic or electrical device, automatically has to comply with the substance restriction of the RoHS- restriction, as long as they are going to be part of electronic or electrical devices according to the RoHS- restriction.

Therefore you are receiving this supplier declaration.

With best regards

ppa. Umit Parsak
